BRING HISTORY TO LIFE

The Adventure Team create educational workshop experiences designed to captivate children's imagination through rich, interactive storytelling, roleplay, music, comedy, & team challenges.

WHAT WE DO

LEARNING THROUGH CREATIVITY & PLAY

With a mix of roleplay, collaborative games & interactive storytelling our group workshops are designed to fully engage children by making them part of an historical adventure. Every session is led by an experienced performer, and is packed full of energy, imagination and most of all, fun.

Workshops are perfect for topic launches, enrichment days and end-of-term treats, and help children deepen their historical understanding as well as developing confidence, collaboration, and expressing their creativity.

TESTIMONIAL

“

We were lucky enough to have one of the first educational adventures at our school. The children and adults alike were totally blown away by Johnny's infectious passion and enthusiasm for the topic, which in our case was the Romans.
The children have talked about it non-stop since it happened.
